## HOW IT WORKS

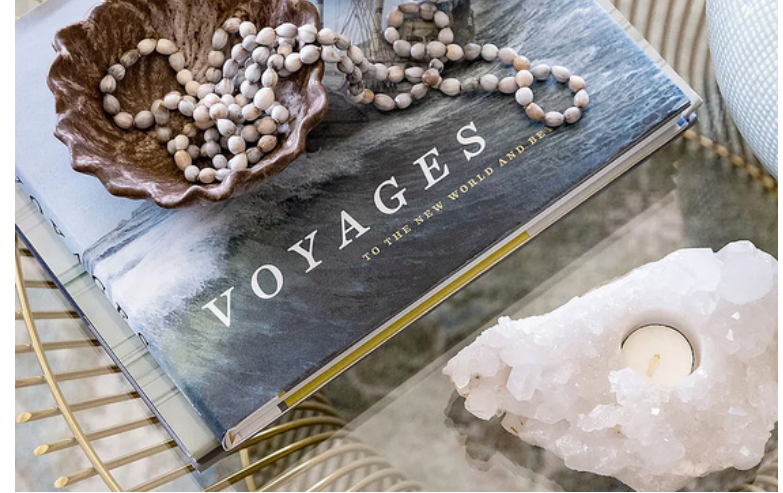

We'll provide the right blend of furnishings, window coverings, home automation, decorative lighting plan and accessories that you'll be excited to live with every day! You can expect a well-planned and cohesive design plan that will bring your rooms to life.

After a Consultation, we'll provide a customized proposal of your design fee based on the size and complexity of your project. A complete design plan will help us minimize the time spent in less predictable phases such as procurement and project management.

We'll work together to establish your project's budget before you sign a contract so we can design your rooms within these requirements.

Please tell us if you're considering multiple rooms since this may create efficiencies in the design process that can save you money in design fees.

We can build a proposal that focuses on just the areas and rooms you'd like as a Phase approach

“Will has a discerning eye and an incredible sense of style. Yet he also listened to my opinion and blended my preferences with his own aesthetic. He is patient and well-paced. He knows when to nudge you and knows when to take a step back.”

TERRY CROW

“Working with Will was absolutely fantastic. My house is better than I ever could have imagined! Will is amenable, respectful, creative, and kind. He brings an anchoring and peaceful presence amongst the chaos that can be redecorating.”

FRANCESCA MOISSON

“Will spoke with me and my husband to get a feel for our personality and what we were trying to achieve. He then brought the vision! Even with furniture delays (due to COVID-19) he was able to seamlessly put together a room refresh which I marvel at each day.”

SIMONE HOLLINS

“The creative process was very helpful in getting us to the point where we were open to change and ready for something new. In the end, we were very happy with the choices. Absolutely awesome talent. I highly recommend him!”
